

Knox COVID Health & Safety Update – December 2023

The Knox COVID Health & Safety Team met in December 2023 to review and update our Covid Policy.

For Sunday worship, Knox will reserve rows in the back streetside section of the sanctuary for those who prefer to mask and stay social distanced.

While masking is no longer required, Knox encourages the following:

- **If you are feeling ill, remain at home.**
- If someone in your household is ill, consider staying home, or masking if you must go out.
- Get vaccinated.

The leadership of some ministries may, in certain instances, ask participants to mask; for example, a group leader or Sunday School teacher may ask that those in their presence mask while they are together. We hope that participants will honour the wishes of the leader and willingly comply.

We pray that we may foster a spirit of Christian community in as safe a manner as possible. People are at different comfort levels with respect to masking and safety. May we interact with one another in a spirit of openness, kindness, and patience.
